Mississippi Digs Out of Tornado's Wreckage

Homes were leveled and rolled together as so much paper by a tornado which swept through Mississippi and laid low farm buildings and towns in its wake. In the upper picture, a house is seen being rolled over a great store of hay which fell upon it, when the wind played havoc with it. At Berclair, Miss., lower picture was taken at Grenada, Miss. The wind that caused U.S. damage just missed a hospital which stood near by. Note the spectators, standing about the dazed center.

OBITUARY

MR. DON MOSES

"Given with boughs, a lordly cedar falls, And leaves a lonesome place against the sky." On Thursday morning, March 19, just as the new day began, there began a new day for Don Moses, a day to end only with eternity. Gentle as the zephyr wings of the early morning, his spirit was borne to the "house not made with hands, eternal in the heavens." His entire life was a preparation for the abundant entrance that was his into the heavenly mansion.

"No rest could beneath the grasses, Nor sleep in our Father's bosom, Living in another room." From his early boyhood, his noble spirit of God had given the greatest gift of all time in loving, unselfish, and his God. His altruistic spirit, his unswerving zeal and his unflinching friendship made him one of the most beloved men in the community. He was a man who knew his own mind and was not afraid to stand up for his beliefs. He was a man of great faith and courage, and his life was a testament to the power of God's love.

Don Moses was a man of many talents and interests. He was a skilled businessman, a devoted family man, and a passionate lover of his country. He was a man who lived his life to the fullest, and his death was a great loss to his family and the community. His legacy will live on in the hearts of those who knew him and in the many good deeds he inspired.

Funeral services for Mr. Don Moses will be held at the Appomattox Baptist Church on Sunday, March 22, at 10:00 a.m. The burial will take place in the Appomattox Baptist Cemetery.

SOUTHERN STATES COOPERATIVE FARM BULLETIN

GROWING CHICKS is not quite as simple as A B C, but if you'll be careful of these three things you'll worry with poultry will be few and far between:

FIRST, give your chicks really adequate care, and keep a complete record of growth, costs, and profits. (Southern States will be glad to furnish you free help.)

SECOND, feed them balanced, high quality feed with plenty of vitamins, balanced minerals, and proteins. (Southern States feed has already grown 100 million chicks.)

THIRD, buy chicks with good breeding—healthy, disease-free chicks. (Even if they live, poor chicks aren't worth the feed it takes to raise them.)

HYBRID CORN. There will be a critical shortage of some of the outstanding hybrids that Southern States supplies.

Add to this the farm labor shortage and you can see that it's far more important than ever to use high quality seeds, so that maximum results can be obtained from the land that CAN be farmed.

From where I sit... by Joe Marsh

Don't suppose I ever knew was a fellow named Sam Abernethy. Sam's specialty was to take over some run-down store that some body else had given up as a failure. Then Sam would turn it into a gold mine.

"But the most important thing of all," he used to say, "is to be a member who's boss." "You may think you're a boss of your business... but you're not. The Public, your customers, are the real bosses... and you've got to run your business the way they want it."

That little statement of Sam's made a big impression on me... particularly since it certainly seemed to work so well in Sam's case. And Sam isn't the only one I see the beer industry feels the same way... certainly, the brewers believe in running their business the way you and I would like to see it run.

Folks like us like to see beer sold in clean, quiet, decent places.

The American BANKING System IS Democracy at its Best

THE HAUNTING SPECTRE—by Wells

There are some 16,000 American banks, each owned and operated by local citizens. Separate in a sense... yet they are knit together into one great 'system' by the common aim of service. Responsive to the needs of each community, yet they are geared to meet the nation's needs instantly in its hour of crisis. There's nothing like it elsewhere; it's the envy of every other country; it's democracy functioning at its very best.
